NVI “Snippets From the Field”

Drawn from the combined NVI Leadership in Africa reports, August 2026

1. Katito Women's Retreat — Stewardship Meets Budgeting

Theme: Fiscal Training + Faith | Region: Kenya (Katito) | Source: Elly's August report

Dozens of women filled House of Hope Chapel in Katito, Kenya for this year's NVI Women's Retreat. Speaker Anne Godiah unpacked the Parable of the Talents alongside practical lessons on saving and budgeting, challenging the women to shift their mindset from “I need to be given” to “I can do something to earn.” That's stewardship — faith and finances, hand in hand.

2. A Garden That Grows Savings

Theme: Micro-Farming + Fiscal Training | Region: Uganda (Shibanga Savings Group) | Source: Uganda monthly report

“Before the training, I did not know how to plan and manage the money I had for my family, and I often spent it without saving. But now, I have learned how to manage my money better and make saving part of my life. The vegetable garden has also helped me... provide vegetables for my family and reduce the need to buy them.” — Church Facilitator, Shibanga Savings Group, Uganda. Micro-farming and fiscal training, growing side by side.

3. Shekila's Rice Business

Theme: Business Management | Region: Kenya (Katito/Kandaria) | Source: Elly's August report

Meet Shekila. During his home visits across Katito and Kandaria this month, our field coordinator Elly stopped by to see her rice business in action — one of many women turning what they learned in NVI training into steady, working income for their families. Small, faithful steps add up.
